# NEW KGSP LINEUP AIR FILTER for 5t SR-5,-6

High quality filtration for engine suction system,  
equivalent to genuine filter.

## Benefits

Cleaned air  
supplied to engine

Long life  
of engine

## General interval time

- Every 250 running hrs : cleaning by compress air blow.
- Every 1,000 running hrs or a half year which come up first for replacement.

\*Interval time dependent upon to environment of job site.

\*\*Information by opearation manual for both outer and inner air filter.

## Important notes

Cleanliness of intake air will  
maximize engine performance.

Dirty intake air causes engine  
performance and wearing of engine  
component (Piston, ring and bearing)

Rough & Scratched surface  
lead to Life of engine shorten  
and higher maintenance cost.
